many more and far greater besides. Not

The New York Herel. only was state money squandered in tailroad and other schemes, but funds designed for school and other inviolable purposes have been wasted. Public improvements have been made at the expense of confiding subscribers of bot ds, and then these bonds have been repudiated and the improvements tuned over to or taken possession of by the sixten—seized as the profit of their under the thin dis nise of glgantic confidence games manipulated by governors, courts and officials generally. In the face of this wholesale plundering the party responsible for it asks the people now to surrender to its management the insucial affairs of the nation. Here another matter is offered which must be considered in the present political contest.

An attempt, however, is made to defend his wholesale repudiation on the pleathat the debts were fraudulently incorred by the "carpet-bag administrations" of the southera states, during the years immediately following the class of the war. But this plea in large part in false. A great proportion of the repudiated debte was contracted before or during the war. The Boston Advertiser, with an industry and thoroughness highly credit able in any journal, has followed up the history of the southern debts, and has shown in the case of each repudiating state what part of its repudiated debt existed prior to the war, and what part had been incorred since the war closed. The results show that the southern states, upon reorgenizing under democratic, or home raie, as they call it,—that is, after the present dominant party bud seized, the state governments through violation of the rights of suffrage,proceeded at once to repudiate not only all the debt created since the war but much of

the old ante war debt with it. At the clo

of the war Viginia owed \$38,938,144. The interest in arrears was then funded, making

a total in 1866 of \$43,383 679. The state is now paying in erest only on \$1,612,000. The

amount repudiated, or "suspended," is there-

fore nearly \$35 000,000, no part of which Heb

any carpet-barger hall to do with making. At

the close of the war North Carolina owed

\$9,690,000. Of this amount all except \$1,850,000 has been dishenored by sudoption of

the ' new fund ng act" of the state -a physic

which has been chosen as an cuphemistic aubstitute for repudiation. Tennessee at the

close of the war had a debt of \$20 106 000

The state now pays interest on but \$1,708,-

000 of this amount. Arkansas had an old

debt of \$4,037,000, which has been scaled

through the whole list, Many transactions

in certain southern states under the carpet-

bag governments, so called, were unques

tionably discouest. But the amount of debts-

reated by them has been grounly exaggerat-

ed for partisen objects, and to cover the gen-

eral scheme of southern repudiation. Let it be observed, step, that the, so called carpet

bag plunderers never controlled Virginia,

TEE SCHOOL FOR DEAF MUTES.

Statistics show that in a state of society like ours about one person in fifteen hundred will be deaf and dumb. It is a proportion which seems to continue with the certainty and per-latence of an inexocable law. Experience has shown that the draf mutes are a class who can be educated to self support. Or they may remain a copendent element in society and because without knowledge of any kipd.

perhaps a dangerous element. Education of
this close, from whom knowledge is shut out throug a certain senses, consists in finding en-trance through other senses for imparting knowledge. It is not only book learning that these people require, they need also to be brought into communication with the world and taught some simple and ionest method of earning soliving. It has been demonstrated by many experiments and groofs that this 3 entirely practicable. Ore-gon has a school for deaf mutes which has been in operation most of the time for te ream, but it cannot be said yet to have passed 'experimental stage, years past there have been enrolled 28 pupils. tory, admitted into the Oregon chool on he payment of \$200 per snaum cach. This school made a beginning in 1870, a small appropriation for it having been made by the egulature at its session in that year. At each succeed ng smalen the appropriation has been somewhat ingressed. In 1878 the amount for the school for deaf matter and the school for the blind was made ten thou and ioliars. Rev. P. S. Knight of Salem, who has made the subject of the edumation of deaf nutes a specialty has always taken a deep and intelligent interest in the chool. The number under instruction by no means equals the whole number deal mules in the state to whom such instruction would be a profit. It is not easy to find hem it all cases, and parents are requestly remiss in reporting them.
